

# NOW HIRING SUMMER INTERNS

## ABOUT THE ROLE

J|D's 10-week paid Summer Internship Program offers college juniors, seniors, or recent graduates are encouraged to apply the opportunity to fully immerse themselves in the day-to-day operations of a leading national aviation consulting firm. Students participating in the program will build upon their current skillset and work in a collaborative environment. You will spend your first few weeks in a classroom setting and in the field learning about all things aviation. Next, you will join teams from J|D's practice areas intent on delivering excellence to existing and potential clients. This is a full-time, on-site Intern role at JID's headquarters in Ypsilanti, MI.

## RESPONSIBILITIES

- › Must be pursuing a four year or graduate degree from an accredited program in aviation management, construction management, urban planning, architecture, engineering, quantitative analysis, math, computer sciences, computer-aided design, or other related fields.
- › Proficiency in Microsoft Office Suites- Word, Excel, PowerPoint, and Outlook.
- › Proficiency in specific firm software is a plus (Adobe creative suite, Autodesk, CAD, Professional graphical production, Financial analysis software, etc.)
- › Excellent communication skills, both verbal and written.
- › Organized with excellent attention to detail.
- › Solid time management skills with ability to meet deadlines.
- › Desire and ability to work as part of a team.
- › Be able to work up to 40 hours per week throughout the summer internship with minimum absences.
- › Ability to represent JD professionally in all work situations.
- › Relevant work experience, including other internships, is not required but is a plus.
